

How to Monitor Student Behavior in Minga

A staff and teacher's guide to measuring and reporting behavior in Minga

MINGA 6.10.0

Minga Behavior Manager makes recording student behavior easy

Minga Behavior Manager is an easy way for teachers and staff to monitor student behaviors directly from your device.

Choose from a custom selection of Praise or Guidance behaviors to assign to a student.

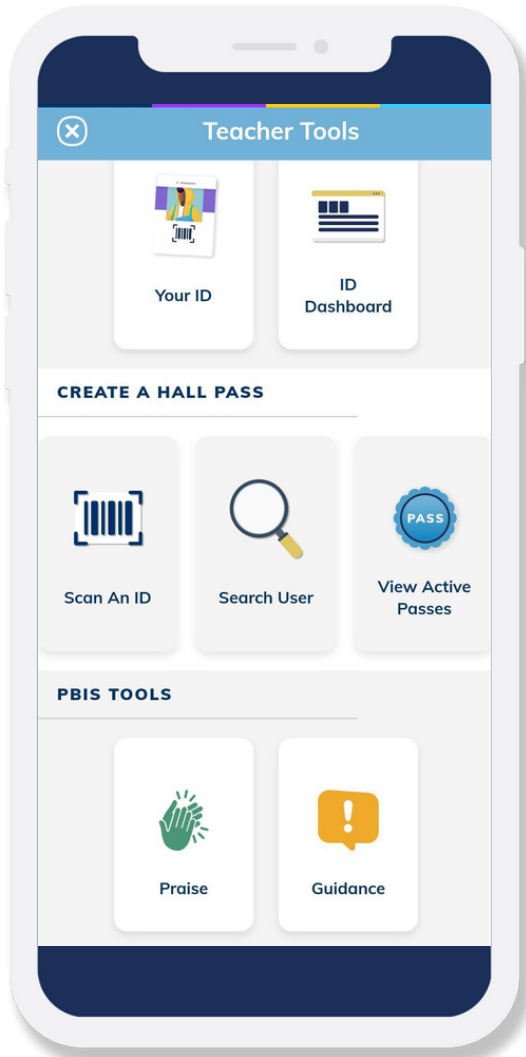

Behaviors are measured and reported to enable both celebration of successes and identification of opportunities for improvement.

Minga Behaviors reinforce positive behaviors by awarding points for praise behaviors that count towards the students individual and team leaderboards.

Minga Behaviors are only available to teachers and staff who are enabled to assign behavior. Contact your Minga administrator if Behavior Tools are not visible.

Send Praise or Guidance to students

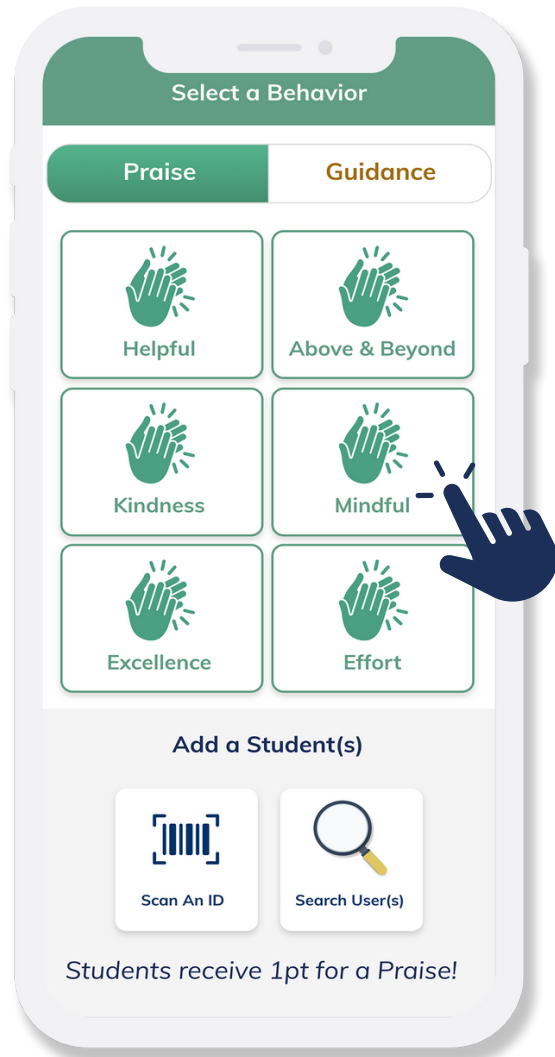

Teacher Tools

Go to Teacher Tools in the Minga App.

Scroll down to PBIS Tools and select **Praise** or **Guidance**.

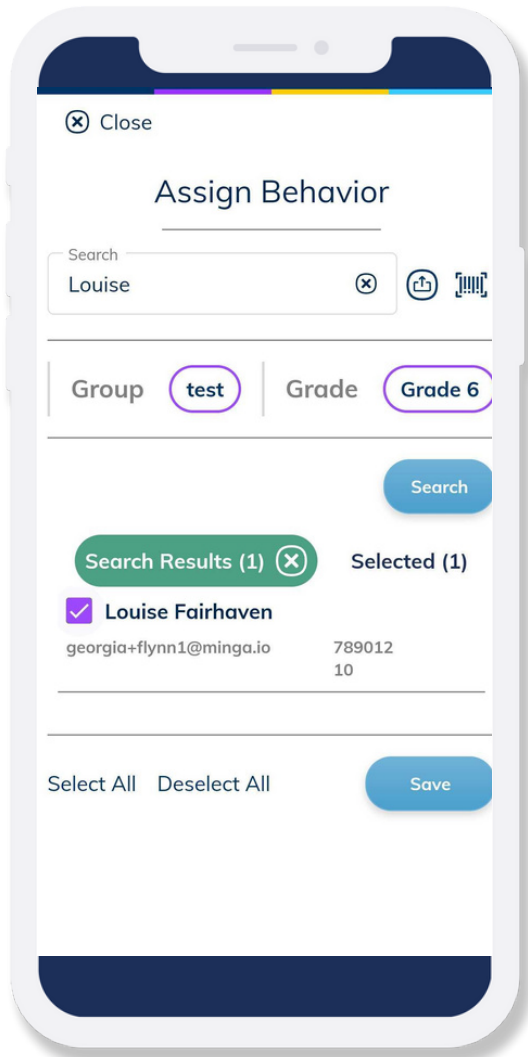

Select Behavior

Tap on the chosen behavior.

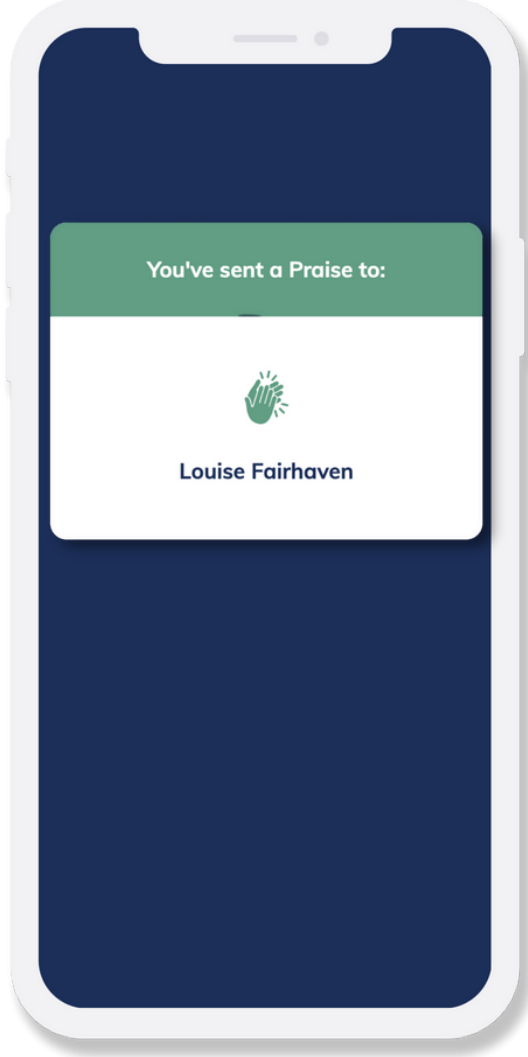

Write a message explaining why the student has received the Praise or Guidance.

Select Student(s)

Select student(s) by scanning a student ID or Searching User(s) to search by name or filter by group, grade or role.

Done!

The selected student(s) will receive a notification with the tracked behavior, message sent and any associated points awarded.

Student notifications

When a behavior has been tracked, the specified student(s) will receive a notification via the Minga App along with your message explaining the reason for the tracked behavior.

This is a great opportunity to let students know exactly what behaviors you are encouraging or discouraging.

Students who receive Praise will also receive points which are counted towards their individual and team student point leaderboard.

Minga Help Center

For any other support you need when setting up and using your Minga, please visit our Help Center and the knowledge base.

We host weekly training sessions on Zoom which are a great opportunity to get specific questions addressed in person. We encourage you to attend!
