Minga Behaviors makes recording student behaviors easy

Behaviors are measured and reported to enable both celebration of successes and identification of opportunities for improvement.

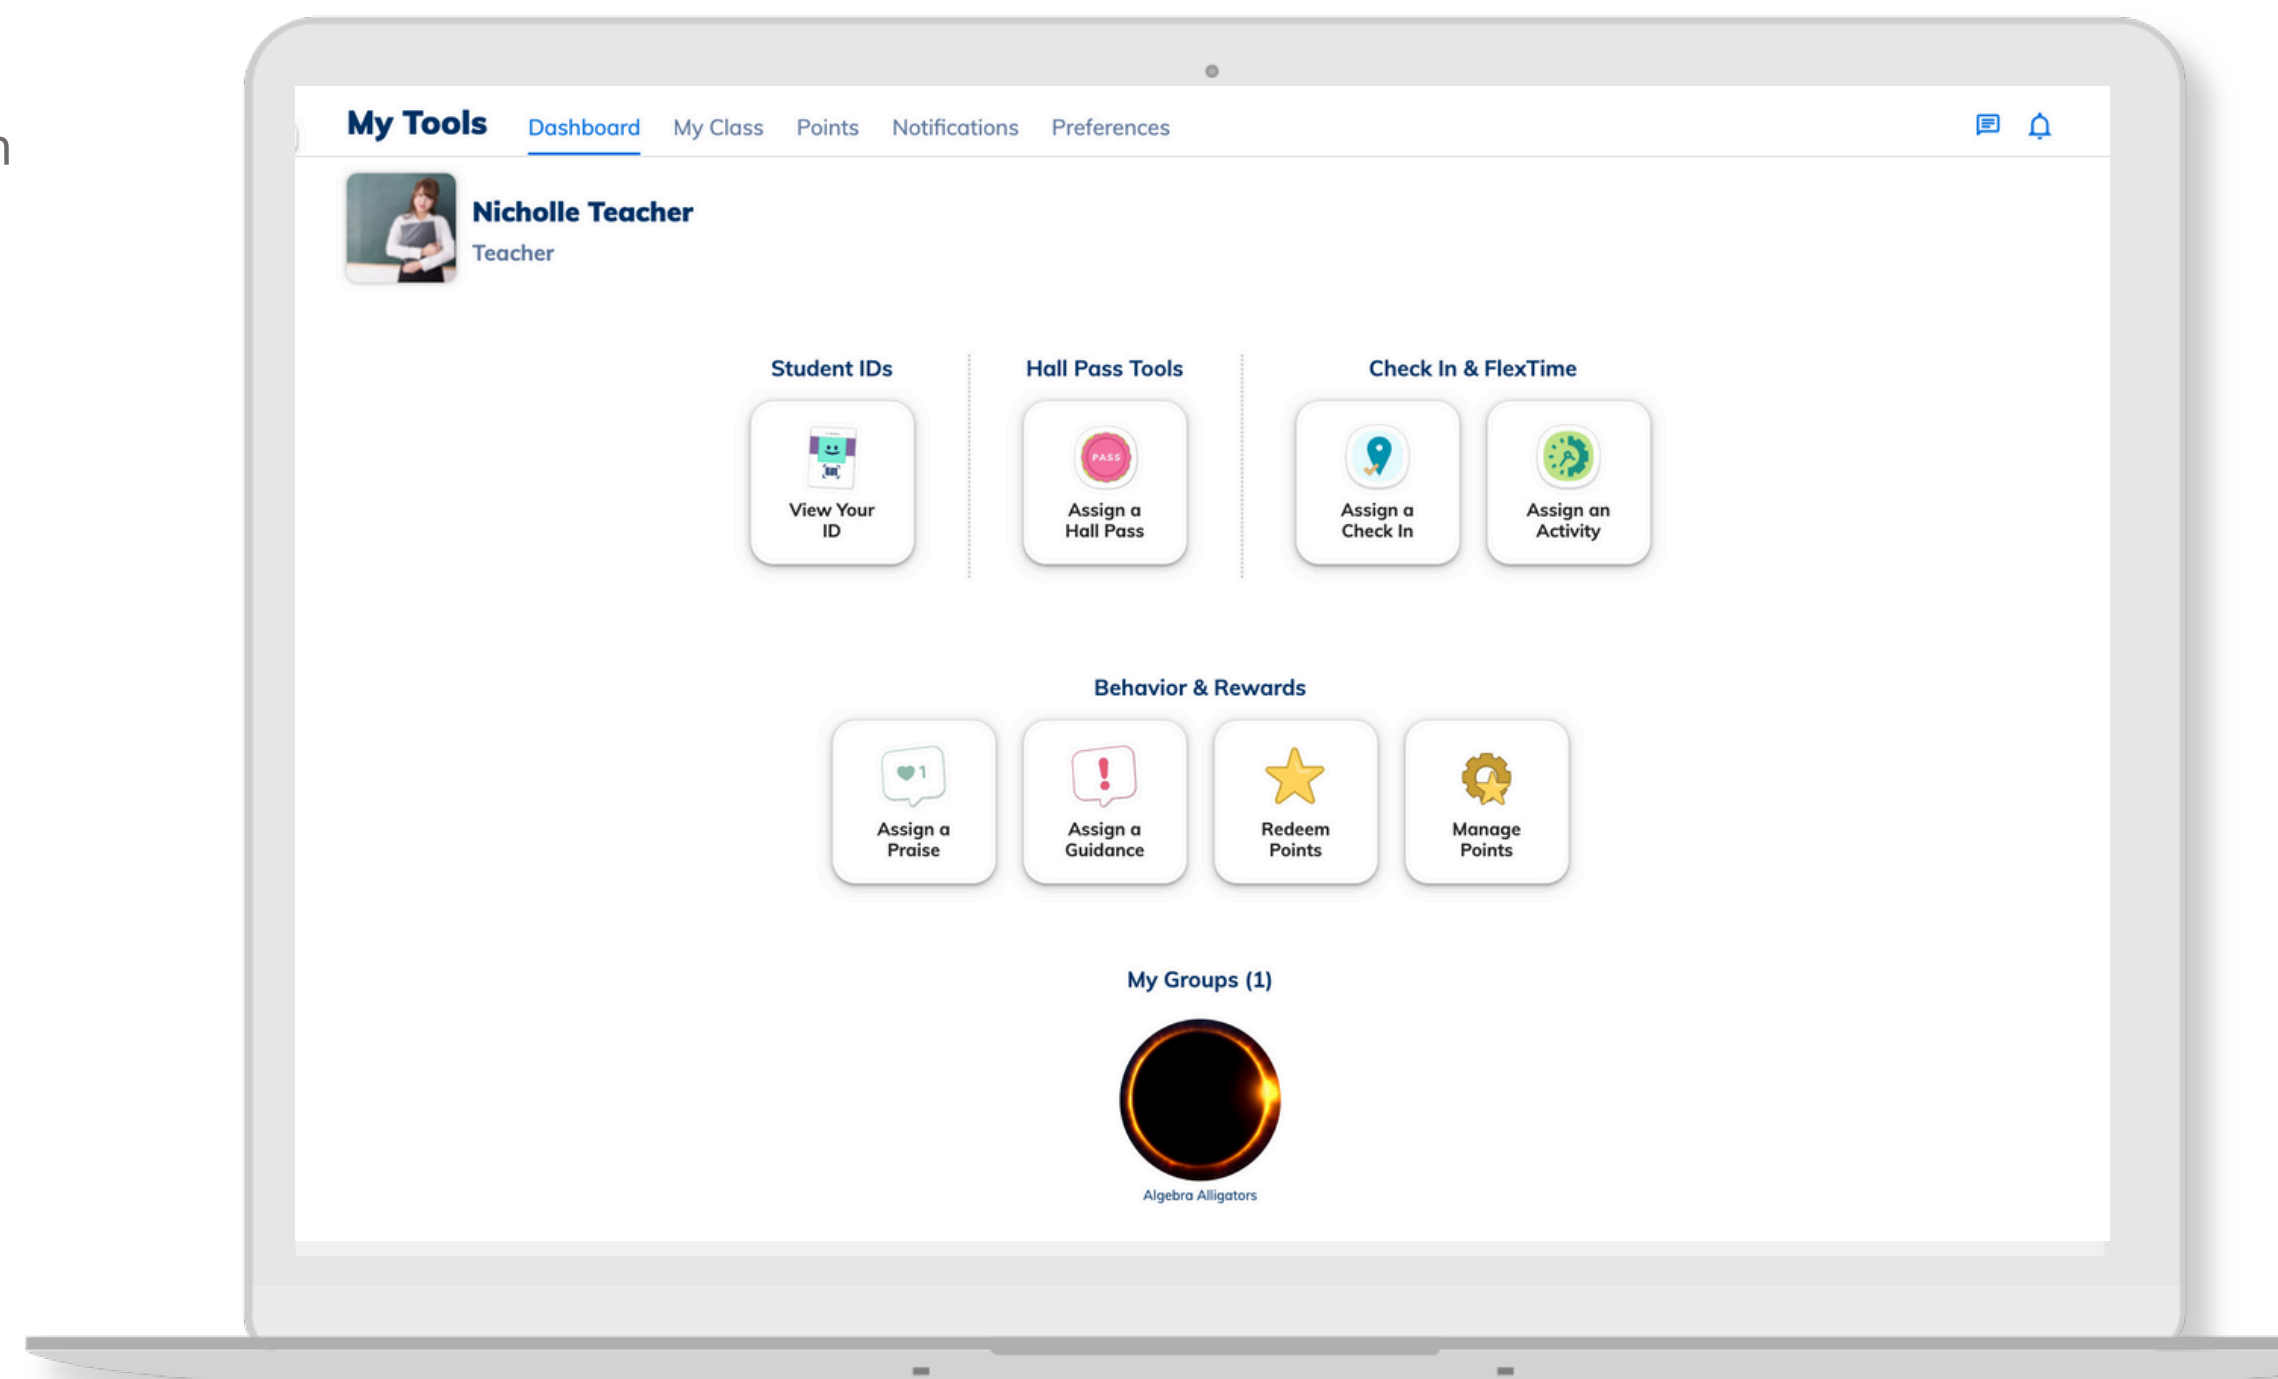

Minga Behaviors reinforce positive behaviors by awarding points for praise behaviors that contribute to the students' individual and team leaderboards.

Minga Behaviors is an easy way for teachers and staff to monitor student behaviors directly from your device. Choose from a custom selection of Praise or Guidance behaviors to assign to a student.

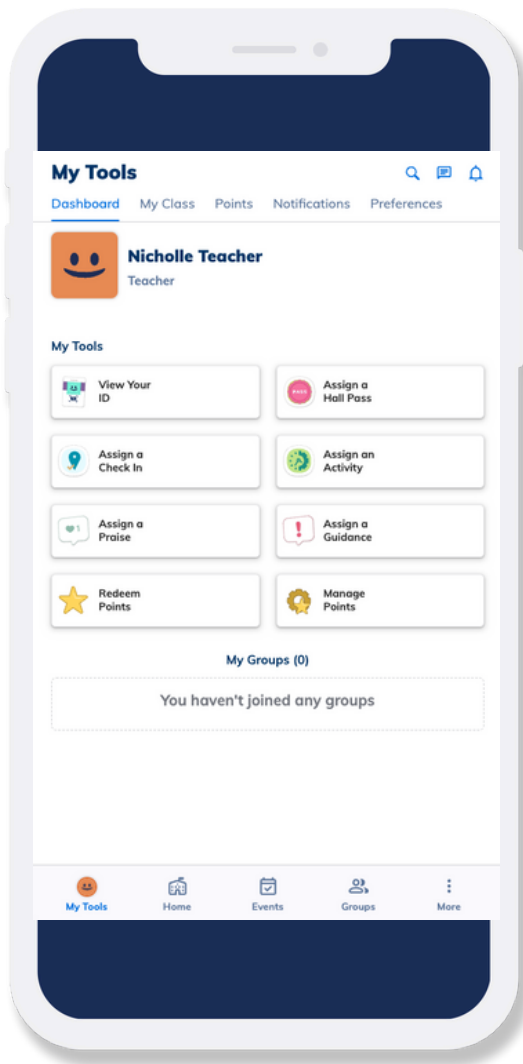

Minga behaviors are only available to teachers and staff who are enabled to assign behaviors.

Contact your Minga admin if Behavior Tools are not visible.

Student notifications

When a behavior has been tracked, the specified student(s) will receive a notification via the Minga App along with your message explaining the reason for the assigned behavior.

This is a great opportunity to let students know exactly what behaviors you are encouraging or discouraging.

Students who receive Praise will also receive points which are counted towards their individual and team student point leaderboard.
